Seven More Families Retain Greene Broillet Wheeler, LLP To Represent Them in Claims Against UCI Medical Center's Liver Transplant Program

SANTA MONICA, Calif.--(BUSINESS WIRE)--Jan. 3, 2006--Seven more families have retained the Santa Monica, CA. law firm of Greene Broillet Wheeler, LLP to represent them for wrongful death and other potential claims against the University of California at Irvine's Medical Center and its liver transplant program. The Arms Family, the Degenhardt Family, the Henderson Family, the Vu Family and the Wade Family, as well as UCI Liver Transplant Program list members Barry Johnson and Christopher Millington, are represented by Browne Greene, Christine D. Spagnoli and Mark T. Quigley.

Greene Broillet Wheeler anticipates filing individual law suits on behalf of its clients later this week. The firm has been investigating issues surrounding allegations of fraud, concealment and misrepresentation on the part of UCI Medical Center as to the availability of livers for surgical transplant and the ability of its liver transplant surgical team to perform such operations.

Mssrs. Greene and Quigley and Ms. Spagnoli also represent Elodie Irvine whose earlier civil lawsuit against UCI Medical Center prompted a federal investigation into its liver transplant program, resulting in decertification of that program on November 10, 2005.

Editor's Note:
